

## DIAGNOSTIČESKAJA MEDICINSKAJA MORFOMETRIJA

MILOVANOV AP (ed.) 2002. Moscow: Russian Academy of Postgraduate Education.  
ISBN 5.7249-0739.9

Sbomik, posvjaščenij 80-letiju Georgija Gerasimoviča Avtandilova (in Russian).

(Diagnostic medical morfometry. The collection dedicated to 80-th jubilee of Georgy Gerasimovich Avtandilov).

The book »Diagnostic medical morphometry« contains materials of anniversary XX-th scientific and practical conference »Morphometry in disease diagnostics«, dedicated to 80-th jubilee of Georgy Gerasimovich Avtandilov, doctor of medical sciences, member of Russian Academy of Natural Sciences, professor of Pathological Anatomy Chair in Russian Medical Academy of Postgraduate Education.

The book contains 35 papers, 32 of them in Russian and 3 in English. The authors are mostly from Russia and other countries -parts of former Soviet union (69) and from Germany (10). The supplements contain two presentations of G.G. Avtandilov as man and scientist as well as brief information about his scientific publications and scientific school. He is doyen of stereology in Russia, author of more then 300 scientific papers and several monographs, one of them in English (Computerized microtelephotometry in diagnostic histocytology. Moscow: Folium Publishing Company, 1998).
